

# KAIF ANSARI

## Junior Software Engineer

Uttar Pradesh, Jaunpur

+91 8601978635

Kaif\_ansari@optum.com

Kaifansari68999@gmail.com

### EXPERTISE

Java

Spring Boot

Hibernate

Orm

Mvc

Docker

Kubernetes

GitHub action

Jenkins

Shell scripting

### EDUCATION

#### DIPLOMA COMPUTER ENG

Jamia Millia Islamia  
2019 – 2022

#### INTERMEDIATE

Uttar Pradesh Board  
2017

#### High School

2015

#### ACHIVEMENT

Received 8 Bravo 2024  
2 Time employee of month

#### CERTIFICATION

I did certification in AI 2024

### CAREER SUMMARY

As a Java/DevOps engineer with over 3 years of experience, I have honed my skills in automating and optimizing mission-critical deployments over a large infrastructure. My expertise spans across various tools and platforms, including GitHub Actions, Docker, Jenkins, and Kubernetes, enabling me to streamline CI/CD pipelines and enhance operational efficiency.

### PROFESSIONAL EXPERIENCE

MARCH-2023 -PRESENT

#### AS JAVA DEVELOPER

As a Java Developer, I have successfully implemented three significant enhancements for our web application. Initially, the application supported claim processing for only four US states. Through my efforts, it now efficiently handles claim processes for all 52 states, significantly expanding its functionality and user base.

#### As a DevOps Engineer

##### Docker

- Migrated the operating system for web and batch sides of the application as per EIS recommendations, reducing 90% of critical vulnerabilities. The application now running on a Chainguard base image.
- Proficient in troubleshooting and resolving issues related to Docker containers and environments using Docker logs and other tools.

##### Kubernetes (K8s)

- Skilled in orchestrating containerized applications using Kubernetes.
- Experienced in deploying, scaling, and managing containers for applications.
- Integrated Kubernetes with CI/CD pipelines using tools like Jenkins and GitHub Familiar with Kubectcl CLI commands.

##### GitHub Actions

- Proficient in designing and implementing CI/CD pipelines using GitHub Actions.
- Automated build, test, and deployment processes for various applications.
- Experienced in writing and managing YAML configuration files for GitHub Actions workflows.
- Used GitHub Actions to automate tasks like code linting, testing, and deployment.
- Implemented security best practices in GitHub Actions workflows, including secret management and access controls.

##### Jenkins

- Successfully implemented Jenkins pipelines for our project which was restarting the job, resulting in to deploy the fresh container every Days.
- Proficient in troubleshooting and resolving issues related to Jenkins jobs and environments like Managing the plugin and secretes.
- Skilled in understanding Jenkins Pipeline scripts (Jenkins file) using Groovy.
- Implemented declarative and scripted pipelines for complex workflows.

##### Shell Scripting

- Familiar with all shell script commands.

#### AS A QA

AUG 2022 – FEB 2023

During my initial tenure at Nice, I worked as a QA engineer on two projects related to Nice Mainframe online screens. This role allowed me to gain valuable insights into Domain and Mainframe concepts. Familiar with various testing concepts, including Baseline Testing, Regression Testing, Integration Testing and System Testing
