

JOB OBJECTIVE

Dynamic and result-driven technology professional keen to pursue roles preferably in Information Technology sector with a focus to leverage expertise in Java Full-Stack Development to drive efficiency and success. Targeting roles ideally in Delhi NCR, yet open to PAN INDIA for the right career prospects.

EDUCATION

2021: Bachelor of Technology in Computer Science Engineering, Guru Gobind Singh Indraprastha University, Delhi- CGPA: 9.6

CORE COMPETENCIES

- Microservices Architecture
- Agile Methodology
- API Documentation
- Unit Testing
- RESTful Web Services
- SQL/NoSQL Databases
- Service-Oriented Architecture (SOA)
- CI/CD
- Test-Driven Development
- Backend Development
- Version Control
- Spring Security

TECHNICAL SKILLS

- Languages:** Java, JavaScript
- Frontend:** HTML, CSS, Javascript, Bootstrap, React.js
- Backend:** SpringBoot, Hibernate, Microservices, Apache Kafka
- Databases & Cloud:** MongoDB, MySQL, AWS
- Testing Frameworks:** JUnit, Jest
- Other Tools:** Git, Github, Maven, JIRA, Jenkins, Docker, Postman

OTHER ENGAGEMENT

CSE Board Committee, ADGITM | SECRETARY | July 2019 - June 2021
Avant Garde - The Fine Arts Society, ADGITM | CREATIVE DIRECTOR | Dec 2017 - Dec 2019

PROFILE SUMMARY

- Accumulated **3.5 years of experience in Software Engineering**, specializing in **system architecture** and **development** within the technology sector.
- Currently **excelling as a Senior Systems Engineer at Infosys Limited**, architecting scalable microservice infrastructures and optimizing operational efficiencies for high-profile clients.
- Developed a **skill set encompassing programming languages, cloud technologies, and agile methodologies**, with a proven track record of enhancing system performance and user experience.
- Attained significant advancement by reengineering a microservice architecture that resulted in an impressive **80% uptime** and a **substantial reduction in operational costs by 30%**.
- Showcased **proficiency in cloud computing capabilities**, particularly in leveraging **AWS services** to enhance system reliability and performance.
- Spearheaded an initiative that optimized third-party API interactions, **leading to a remarkable 20% decrease in monthly operational expenses**, showcasing cost-effective solutions.
- Well-versed in data management principles**, particularly in **utilizing Hibernate** for efficient **ORM integration**, ensuring seamless database interactions.

WORK EXPERIENCES

Infosys Limited, Gurgaon Jan 2024 - Present
Senior Systems Engineer

Key Roles and Responsibilities:

- Scalable Microservice Architecture:** Designing and implementing a scalable, fault-tolerant microservice architecture for Maxlife Insurance using Spring Boot and strong security, ensuring 80% uptime and improved system reliability and performance.
- Data Management:** Leveraging Hibernate for enhanced ORM integration and optimized database interactions, improving performance & enabling seamless data flow across services.
- API Integration:** Reducing monthly operational costs by 20% through improved third-party API integration and more efficient external service calls.
- Cross-Functional Collaboration:** Working closely with cross-functional teams to deliver high-quality projects on time, adhering to Agile methodologies and promoting continuous improvement.
- Infrastructure Optimization:** Attaining a 30% reduction in operational costs by optimizing infrastructure and focusing on resource efficiency.

Infosys Limited, Gurgaon Jul 2022 - Jan 2024
Systems Engineer

Key Roles and Responsibilities:

- System Stability:** Leveraged AWS services like CloudWatch, S3, and DynamoDB for Root Cause Analysis, improving system stability and reducing resolution times.
- Issue Mitigation:** Developed System Integrated Checks to identify and address issues early, enhancing system reliability and minimizing disruptions.
- Customer Experience:** Streamlined issue detection and resolution, ensuring a seamless user experience and boosting customer satisfaction and retention.

Servosys Solutions, Noida Jan 2022 - July 2022
Software Engineer

Key Roles and Responsibilities:

- API Development:** Developed and maintained REST APIs for a Banking Loan Project using Java, Spring Boot, Hibernate, and Spring Security, improving API response times by 20%.
- Security Enhancement:** Implemented JWT authentication and role-based access control (RBAC) with Spring Security, reducing vulnerabilities & achieving a 30% decrease in potential data breaches.
- Deployment & Release Management:** Contributed to smooth UAT and production deployments, following agile practices and utilizing SVN/JIRA for version control and project management.

PROJECTS UNDERTAKEN

HireZone - Job Portal (Java, SpringBoot, Spring Security, Hibernate, JPA, Maven, JavaScript, MySQL) [Link](#)

Developed a full-stack Job Portal, enhancing job search and application management for seekers, and job posting and tracking for recruiters.

VoyageTrack - Seamless Train Reservation System (Java, Spring Boot, Microservices, React JS, JavaScript, Bootstrap, MySQL) [Link](#)

Created an intuitive platform that streamlines train ticket bookings and schedule management for travelers and administrators.

Personalized Movie Watchlist (Spring Boot, JPA, Hibernate, OMDB API, RESTful Web Services, MVC, MySQL) [Link](#)

Developed a Movie Watchlist app allowing users to create and manage personalized favorites, with real-time ratings through OMDB API integration.

- **Quality Assurance:** Delivered releases with zero critical defects post-deployment, ensuring high-quality standards and effective issue resolution.

Newgen Software, Noida
Software Engineer

July 2021 - Jan 2022

Key Roles and Responsibilities:

- **Report Generation:** Designed and developed a report generation tool using HTML, JavaScript, and Node.js, increasing operational efficiency by 40% for Standard Chartered Bank, London.
- **Scalable Architecture:** Leveraged MongoDB to implement a scalable architecture for efficiently storing and managing large datasets, improving data handling capabilities.
- **RESTful API Development:** Created and maintained RESTful APIs to enable seamless integration with third-party services, enhancing system interoperability and data exchange.

INTERNSHIP

Newgen Software, Noida
Software Engineer Intern

Mar 2021 - Jun 2021

Key Roles and Responsibilities:

- **API Integration:** Integrated predefined APIs into the UI code to analyze customer data, optimizing alignment with business requirements and enhancing data-driven insights.

CERTIFICATIONS

• AWS Certified Cloud Practitioner	• Infosys Certified Java Developer
• Infosys Certified Frontend Web Developer	• Infosys Certified JavaScript Developer
• Infosys Certified MySQL Associate	• Infosys Certified Global Agile Developer
